

WOYLA

EMBRACE THE DUALITY
OF CITY AND PARKSIDE LIVING

Voya is derived from the word “voyage”. Voyages often reflect transitions, gateways to memorable experiences and purpose. That makes it a fitting name for this project because Voya’s residents will access the best of Parkside Village’s urban and natural elements. Residents will enjoy the best of both city conveniences and natural park space, inspiring balanced living.

Key Facts

- Voya is adjacent to Avia and Avia 2. Voya will be located on the Northwest end of the Parkside Village community.
- Voya's architectural design finds inspiration from the exceptional location in which this project is sited.
- The site merges together urban and natural edges. It book ends the Parkside Village development and will have unobstructed views on the West and South sides. Zonta Meadows Park and the Future Parkside Village Park to the south.
- No vehicle access will be provided on the park frontage, providing a peaceful and unobstructed view of nature.

Green Roofs

Green roofs and planters make their way up the beautifully sculpted podium, blurring the line between landscape and architecture.

Retail

Approximately 10,000 sq.ft. of retail space will be located between the 2 residential tower lobby entrances on the Cityside.

VOYA

The Architecture

- Two contrasting faces of the building, Cityside and Parkside.
- Hard and soft transitions conveyed through articulation and materials.
- Appreciating its proximity to the vast green spaces that surround Voya.

VOYA

Cityside Living at Voya

On the Cityside, two structured elegant and refined towers gently emerge vertically from a podium scaled to complement the street edge and its pedestrian friendly and well designed landscape features. A grid on the facade for the cityside with vertical emphasis provides a sense of height, protection and solid rhythm.

Parkside Living at Voya

The podium and the towers seamlessly merge into each other defining an architectural expression inspired by natural curvilinear forms. On this side the development becomes an extension of the park and its topography.
